"THE COIN MACHINE MERRY-GO-ROUND"

BY BILL GERSH

CONVENTION

A proposal was made during our last trip by one noted coinman (who may be voicing the sentiment of a great many) that a convention be held this year, inconspicuously, no machines displayed, in one of our major cities wherein discussions could be brought into the open at a general meeting regarding the future prospects for the men who have decided to remain in this business. (At the same time trading, buying and selling could be done). The main purpose of such a meeting would be to have the best minds in the industry present for open discussions. Those who cared to take the floor and present their ideas for the good and welfare of the industry would be welcome to do so. Instead of "coin machine meet" the phrase "indoor entertainment conference" would be used. (In short, a meeting of the indoor entertainment conference to discuss the good and welfare of their industry for the duration). Does this proposal meet with your approval?

TRANSPORTATION

As yet there have been no really serious transportation problems for the industry. The fact that deliveries have been slower is to be expected. It now takes two to three times as long for delivery. Freight carloadings are at peak. Trucks are also jammed. To assure getting the equipment you want - buy now - anticipate your needs as far in advance as you possibly can. Do not expect any transportation miracles to be performed for your personal benefit. Shipping will continue. More restrictions may come. Freight of all kinds will continue to be carried to help maintain industry.

CONCENTRATED

For some time now we have been advising those active members of this industry, who feel they will be here when the war is over, that just because we are gradually becoming highly concentrated (and therefore a smaller industrial unit) that we most definitely should become better acquainted with each other. Not only as a means for protection of our mutual interests but also because that by becoming a more closely-knit unit, we can better serve each other's interests if we have a frank and honest understanding. (And one big purpose of The Cash Box is to help bring about such a better understanding).

ANGLE

Miniature Golf Courses, the rage of the 20's, are doing a booming business in Washington, D.C. (Does this give you a new angle?)

TO SELL OR NOT TO SELL

That is the question! Whether it is better to hold onto machines and sell them at (possibly) greater profits later or to sell them now in the belief there will be no "later". The industry is composed, in large measure, of optimists. (You've got to be an optimist to stick it out in this business). Whether you believe that this is or is not the time to sell - you must admit that the greater majority of coinmen are today enjoying better profits. Sell (someone once said) if you can derive a profit. Do not sell - if you can't. Be fatalistic concerning the future. Come what may this industry will carry on as it has in Canada and in England - where the grim spectre of war has trod a great deal harder on the populace.

ADVERTISING DEDUCTIBLE

The some issues back we reported the I.R.B. (Internal Revenue Bureau) ruling that advertising expense (if reasonable) was deductible from income tax - this has just again been confirmed by I.R.B. in a formal statement (October 25th) as follows: "Advice is requested as to the extent expenditures for advertising will be deductible from gross income for federal income tax purposes. To be deductible, advertising expenditures must be ordinary and necessary and bear a reasonable relation to the business activities in which the enterprise is engaged. The bureau recognizes that advertising is a necessary and legitimate business expense so long as it is not carried to an unreasonable extent or does not become an attempt to avoid proper tax payments. (Your subscription to The Cash Box, even an Air Mail Special Delivery subscription at an additional $26.00 per year, is deductible from your gross income tax).

68 MILLION

At present rate it is expected there will be approximately 68 Million men and women at work in '43. There will be about 14 Million women in civilian production; over 6 Million in war production; and about 1 Million part-time girl workers. There will

"THE COIN MACHINE MERRY-GO-ROUND"

be close to 24 Million men in war effort, 19 Million in civilian production and about 2 Million part-time boy workers. This huge mass of working humanity (just about 1/2 the entire population of the U.S.A.) are your customers for economical and relaxing entertainment. Plan well for '43 by buying what you'll need now.

MECHANICS

The mechanic problem continues acute. Tho suffering is not as pronounced as it was a short time ago - due to many pitching in to do their own repair jobs - and better satisfied with the work - the problem still remains and many are seeking a solution. The only solution so far offered was by some mechanics themselves (published some issues ago) regarding the pooling of mechanical help in each major center thereby creating "service centers". In each city mechanics to get together and by pooling their interests service all equipment at flat rate to be paid by each firm requiring their services. (Of course there are a lot of "bugs" in this idea. But, can you offer a better solution? Remember that "pooling" practice is being demanded by federal authorities of many industries employing skilled mechanics).

RETAILERS

As we have many times stated in the past, the retailer is the best barometer of the coinbiz. It is a well known fact that when retail biz is booming - coingames will boom too. At this writing, retail biz in U.S.A. is at a high peak. Yet retailers, realizing that rationing and elimination of much merchandise production will eventually greatly affect them, are encouraging the placement of coingames in their spots. This helps bolster their income. Retailers are more dependent on "outside" income influences, such as coin machines, than they have ever been before. It is because of this demand on the part of the retailer himself that a great many types of equipment are now being tolerated by officials. The 3,750,000 retail outlets must be preserved for they are the backbone of sales for the post-war era.

SLOTS

Demand for slots has increased at such a rate that prices now being obtained, even for old, outdated models, have the industry agog. But, if you think that these prices are heavy, just watch what they'll be asking by Spring '43. And that goes for every type of equipment - consoles - pins - arcade - revamps - phonos - vendors - etc., etc.

PROFITS

In 1940 only 56% of manufacturers reporting to the Treasury made a profit - in 1942, 89% are reporting profit. Similarly only 60% of wholesalers made a profit in 1940 as against 92% in 1942; and only 43% of retailers in 1940 against 83% today. Thus it is self-evident that those who are staying in business- and not meekly crying the blues and folding up- are overcoming all obstacles and making profits.

TAKE THE LEAD OUT ...

Whatever you tackle, whether its business, war service, social problems, or anything else, if you want to succeed, heed the following advice adapted from a rhyme in Readers Digest:

"God gave us two ends to use: One to think with, one to sit with.
Success depends on which you choose; Heads you win; Tails you lose."

KAISER TELLS 'EM

One of the best statements yet produced by any leader that has won the respect of the people is that of Henry J. Kaiser the ship builder who is really building ships - and in quantity. Impatient at the thought of industrialists afraid that expanded capacity and new plants now might leave them with idle factories when peace comes, Kaiser said, "It has to be pounded into Americans that now is the time to make industry great. We have to make up our minds that we are going into a new era. I don't have any patience with those who think we are going back, after peace, to the kind of world we lived in before the war. There are millions of impoverished people in China, India, all over the world. If we raised the living standards of every family everywhere just about an inch we would be busy at top speed for years to come. We have the whole world to produce for and there is no limit to it." Kaiser also said that America has three "expendables", "Initiative, energy and materials. We have plenty of all three."

THE "INDOORS RECREATION CONFERENCE"

The result of the first mention (in the last issue of The Cash Box) of the suggestion of one of the leaders in this industry that a "convention" (which we instead prefer to call the "Indoors Entertainment Conference") be held, met with much acclaim. We have so far received over 30 letters from subscribers who believe this to be a grand idea.

There is no earthly reason why leading coinmen from everywhere in the country should not get together at this time and discuss their business under war conditions, propose ideas for its continuance, suggest methods for its maintenance.

Leaders of this industry should be present to give their views for the continued good welfare of the coinmen who have decided to remain in this business for the duration. Manufacturers, who are planning to re-enter the coin machines business as soon as the war is over, should be happy to present their viewpoint so as to keep alive a strong nucleus of men in this industry.

Those coinmen who will attend can also get together on deals, trades, buys, etc. Thereby becoming better acquainted with each other for their own future welfare. Naturally there will be no display of machines, none to speak of anyway. But, since all those actively engaged in the industry today know the machines they want and what is on the market these men can easily discuss trades, buys, etc.—quietly—among themselves, after the conferences.

"This will probably not be a large gathering," one coinman writes me, but would instead be a real business meeting of the men who are truly interested in getting themselves into the best possible position to outlast the war."

Since the first signs of interest have appeared we should like to hear further from more subscribers giving us their opinions, suggestions, and ideas relative to an "Indoors Entertainment Conference"—if there is to be one held and where they believe it should be held.

Bill Gersh
